Declatation of Use of AI Tools

Please make sure that the use of AI tools has been discussed with the teacher of the module.

Assessment (mandatory):

Module	Formal Methods for Software Engineering
Assessment	Final Project

Student (mandatory):

First Name	Theresa
Last Name	Genßler
Matriculation Number	122344

Use of tools (mandatory, details inside tables on next pages):

Tool name	Part of assessment	Percentage of tools contribution
Gemini 3	Code and own understanding	
ChatGPT (Free)	Code and own understanding	

Tool name	ChatGPT Free
Link to prompt/Export (optional)	
Tasks it did best	• Gave a gist on where to start and what to look at • Help with solving issues • Support thought process when stuck • Help with thought process of designing functions and functionalities • Help understand syntax and errors of certain code
Tasks it didn't do well; add details	Sometimes the answers are very long and that makes finding the details you need longer, but it gives options so that is issue is not even that bad.
Most beneficial aspect of using it	• The hints where to look at when stuck or having errors.
Most annoying aspect of using it	• The long answers.
Would you use it again, for similar assignments?	Yes
